Converting your current IT Service provider is an easy 3 step process.

Some of us are not comfortable with change, but here at Control IT we can make that change for you as seamless as possible. Do you want to work with an uncomplicated, proactive, professional, and trusted IT Service provider – then it is time to make an improvement and get onboard and switch over to us

Our easy 3 step process

An IT infrastructure Audit report – We will visit you at your premises for a face to face with you and your team to talk over what systems you have and create a report

Submit our Quote – With our findings, recommendations and any issues you may be facing, our quote will give you a clear overview of the costs involved and also your monthly costs, so you can make a firm budget decision for your IT expenditure.

Getting onboard with us – Once you give us the green light, we will start by working with your existing IT service provider for the smooth transition over to us. We will then proceed to get all your devices on your network deployed with our remote monitoring managed software agent.

We help and assist new clients make that easy adjustment process every month by switching over to us.
